

## SIAMS Report

### Responses from parents

**The SIAMS report was sent out to parents and these are the comments received. Grammar and phrasing has not been changed.**

I do believe it is a true reflection of the school and hard work teaching staff have committed to in recent months.

Well deserved report!

It is a very good and well informing report.

Well done everyone, especially Mrs K. A really encouraging report.

It is encouraging to hear about the school's ethos and values and also about the stable leadership that is in place.

I have read the SIAMS report and feel it accurately reflects the school as I know it. Good work!

Fantastic report and good recommendations.

The report from the SIAMS inspection just serves as further testament to the progress and improvement the school has clearly made/is making and reinforces how happy we are with the school.

Well done on a brilliant report. Thoroughly deserved.

Thank you for all working so hard to take our school forwards and make it a place where children get an opportunity to see Christian values in action.

I am in agreement with the report and find the findings interesting. Am glad improvements have been made especially with core Christian beliefs.
