- Purchase of PE teaching scheme (including whole school training and PE leader training) (to be purchased Autumn 2017) **£2,000**

Total expenditure - £10,250

Impact of this funding

- Increased opportunities for pupils to participate in Level 2 (local inter-schools) competitions. This has led to participation in regional competitions.
- Professional coaches able to lead sports sessions during and after the school day promoting a higher level of participation
- Supporting classteachers and LSAs to develop their teaching of PE and Sports and as a result children attaining a higher level of skill development
- Whole School workshops involved all children and staff raising the participation and involvement of all especially those children who don't normally take part.
- High quality PE resources raising the quality of PE delivery and making PE lessons more engaging for children
- Good quality play equipment making break-time and lunchtimes more active. Play leaders (adult and child) encouraging a wider range of children to take part in physical activity. Further impact of this has been that behaviour at break and lunchtimes is now very good
- A wider range of sports introduced to the children and opportunities for progression extended.
- A wider range of choice of activities (including festivals) have led to more interest in taking part and numbers of children taking part in these activities has increased

- Ability to join in different opportunities is far more inclusive. No longer are the best players chosen but all are included especially children who find physical activity challenging (children with physical difficulties)
- Maintaining our tangle tree and trim trail enables the children to continually access this equipment and the impact of this is that a wider group of children are accessing equipment which develops them physically
- Play in early years/Year 1 playground has a higher level of physical challenge

Sustainability – going forward without Sports Premium money:

The school is committed to sustain the quality of PE and Sports provision ensuring access to PE and Sport for all so will continue to ring-fence money for Sports provision to ensure resources and teacher development are renewed and refreshed.

Next academic year the large play trail will have to be replaced and this will cost in the region of £15,000. This expenditure will be met by a combination of fundraising and dedicated money set aside in the budget.

A new PE/Sports leader will also be identified to lead this area of the curriculum and this will incur further CPD costs
